

# Journal of Small Systems (JSS)

## Why a new journal/service?

- Not “another journal” -- a **new concept in communication** of quality scientific results in an open access environment.
- Archive your preprint for **unlimited open access** (similar to e-print archives).
- Only **high quality contributions** will be accepted to JSS, following a positive peer review by voluntary referees.
- **Author keeps the copyright** and **can submit to a conventional journal** (e.g. PRB, PRL, JPCM, ...).
- An **on-line discussion forum** will be associated with each preprint (similar to the NT05 forum).
- Add-on value: **increase the impact factor** of your publication to 5x-20x by search-engine friendly meta-tags.

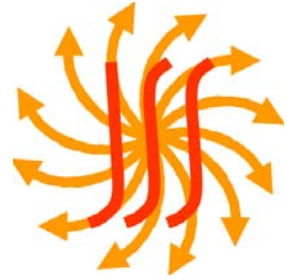

# Processing of contributions

## Publishing team:

Eberhard Hilf  
David Tomanek

Wolfgang Christen  
Gianaurelio Cuniberti

## Editorial Board:

- Olof Echt
- Hellmut Haberland
- Ulrich Heiz
- Karl-Heinz Meiwes-Broer
- Hisanori Shinohara

## Log in to JSS:

- Go to <http://jssmallsystems.org>
